

Re: 02-278. I do not wish to see Indiana's Telephone Privacy law weakened. Since entering on the Indiana list I have received no solicitation calls and only one call regarding a "news survey." This has improved my reaction to phone calls, especially at meal time when many solicitors. We were getting so many calls at various times that I, at times, was very nasty to the solicitors, a behavior I do not favor. Please protect the Indiana Telephone Privacy law and that of other states that have initiated such protection for its citizens.
